

# Quality Management System Requirements & Standard Operating Procedures

## Do you need Standard Operating Procedures?

### Our quality management system includes:

- 46+ SOPs compliant with ISO 13485:2016, FDA regulations (21 CFR 820, 803, 806), Canadian Medical Device Licensing, and European CE Marking
- Associated forms, logs, and templates
- Updated procedures for Regulation (EU) 2017/745 (MDR) & EU 2017/746 (IVDR)

### US Market Compliance Package

- Includes SOPs for FDA regulations (21 CFR 820, 803, 806, 830)
- Price: \$7,000
- Implementation: ~100-120 hours
- Maintenance: 4-8 hours/week minimum

### Note:

- Additional pricing options available (see table below)
- "Turnkey" doesn't mean "work-free"
- Suitable for small start-ups with mostly outsourced processes

### Quality Management System Package Includes:

- Draft quality manual
- Procedures, forms, logs, and templates
- 16 pre-recorded training webinars
- Training verification quizzes

### Customization Required:

- Add your company name and logo
- Adapt documents to your operations

### Training Certification Available:

- Submit completed quizzes in MS Word format
- Receive corrected exams and training certificate
